

Filtration is changing

Helapet launch new filter devices website

We are pleased to introduce our new website and catalogue showcasing our range of standard and custom made filter devices. As Helapet we primarily serve the medical, printing, laboratory, gas, and air markets, providing compact and robust filters for a diverse number of applications.

Our custom filter devices offer customers a solution that is designed around the application ensuring greater performance, and with one of the largest ranges of media and connectors on the market, Helapet lead the way when creating unique solutions from volumes as low as 10.

Our new website and online catalogue provides a modern and unique experience for our visitors with our new easy to use digital catalogue. Our website focuses upon our range of filters and their applications, whilst providing technical information on their performance. The online catalogue in its digital easy to navigate format, extends our commitment to offer our customers' choice, by simplifying the selection process and outlining the industry applications where our filters can be used.

Visit our website on www.filterdevices.co.uk to view our catalogue and see how Helapet filtration can benefit your business. Alternatively you can call **0800 0328 428** where our expert team will be ready to assist you in building your filter.
