

## CUSTOM MEDIA

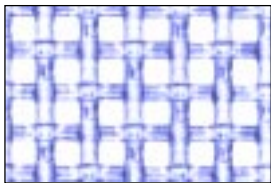

### Depth Media

Glass Micro Fibre, Polypropylene

- Particle removal from liquids & gases
- Removal of micro-organisms from dry air
- Good dirt handling capacity

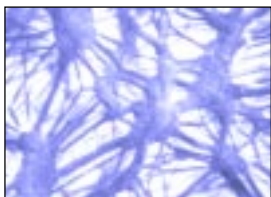

### Woven Screens

Polyester, Nylon, Metal

- Strong rugged filter media ideal for large particle removal
- Broad chemical compatibility
- Long service life
- Very clean non-shedding media

### Micro-Porous Membranes

PES, PTFE, PVDF, Nylon

- Absolute micron rating, Non media migrating
- Nylon for clarification and sterilisation of liquids
- PES for minimum extractables and binding
- PTFE for hydrophobicity and chemical compatibility
- PVDF for wide chemical resistance to aqueous chemical solutions

# FILTRATION

*"Filtration by innovation"*
